

SDA Apartments

SALT - SDA Torquay

SDA Integration

The SALT development will deliver an integrated SDA community, the specific features include;

- All homes to be built to silver LHA
- Widened dual sided footpaths
- DDA compliant sensory playground & community gardens
- Ramped access to town linkway & playground
- Min 7.5 star energy rating = low bills, water tanks, solar panels + battery, no gas bills!

Each 1 and 2 bedroom apartment will be built to your required SDA classification

One Planet Community

The first estate in regional Australia to be recognised as a One Planet Community.

Internationally recognised leadership program based on 10 simple principles that enable organisations to plan for, deliver and communicate sustainability.

The ground-breaking urban development will feature a showcase of innovative, sustainable eco-features including solar cells, battery storage, electric car charging points and smart water meters.

SALT - One Planet Action Plan

Through our sustainable focus & quality build, all apartments will deliver a minimum 7.5 star energy rating

Custom designed kitchen, laundry and bathroom features specifically for your required accessibility

A service driven focus through the on-site dedicated concierge apartment

Customised home automation and communication technology available based on your SDA requirements

DDA compliant sensory playground

Ramped access to town linkway & playground
